Fall Mats

SAFE & SOUND FALL MAT

A multi-purpose impact reduction floor mat. It can be placed next to a bed or chair of at-risk patients to cushion and reduce injuries from falls. The mat is engineered with a thin, floor hugging surface with a beveled edge and anti-slide bottom.

- The beveled edge permits carts, chairs and IV stands to roll over easily and will not impede walking activities or patient stability.
- The mat is covered with an easy to clean, water resistant PVC material with anti-bacterial protection.
- The inside contains a unique polyurethane foam material that provides energy absorption to reduce impact from accidental falls.
- The anti-slide bottom keeps the mat stable on the floor and the non-skid surface prevents the patient or caregiver from sliding.
- The mat is latex free.
- Folding model comes with straps that allows it to be attached to the foot board above the floor
- This mat has an **18-month** guarantee.
- Available in two styles; folding and non-folding

TRANSFER & REPOSITION

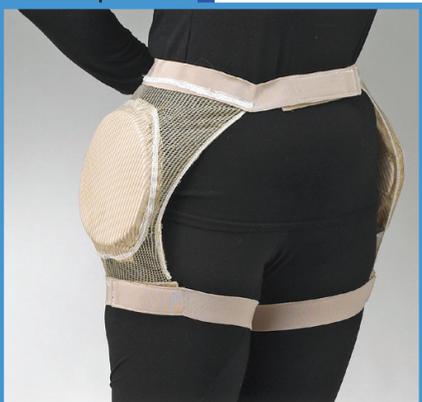

The Skil-Care sheets help minimize the risk of injury for the healthcare workers. The sheets make it easy for nurses and staff to achieve compliance to your turning protocol while providing the best care and minimizing additional stress on the patient. These sheets made of a low-friction material that glides, therefore reducing the level of exertion and they require fewer caregivers and less time. These sheets can be used one time or clean and launder for repeat use.

- Available in two styles; the Continuous Roll model no. 556068 or the Flat Sheet with handles model no. 556069
- Facilitates the transfer and repositioning of bed lying residents.
- Reduces time and caregiver exertion.
- Low-friction fabric helps to prevent shear and friction forces on resident's skin.
- Transfers and repositioning is the leading cause of caregiver injury, stop turning nurses into Patients.
